LANDSCAPE ARCHITECTURE & HORTICULTURE

WHAT OUR STUDENTS SAY

"One of the greatest aspects of the program was the flexible course schedule that allowed me to concurrently begin a design career in Los Angeles."

— **Ashley Maxwell,** former student

Prepare for the LARE Exam

Studying for the LARE can be confusing and stressful, but UCLA Extension's highly regarded review program provides exceptional preparation for all areas of the exam.

LARE 1: Sat., Nov. 10, 9am–5pm

LARE 2: Sun., Nov. 11, 9am–5pm

LARE 3: Sun., Nov. 4, 9am–5pm

LARE 4: Fri, Nov. 2, 1–7pm & Sat., Nov 3, 9am–5pm

Landscape Architecture Electives

Some Horticulture & Gardening courses count toward elective requirements in the Landscape Architecture certificate.

Landscape Architecture

For more information call (310) 825-9414 or email landscapearchitecture@uclaextension.edu.

Note: The Landscape Architecture Program does not support AutoCAD on the Mac.

All CAD courses are fast-paced and complex; absence from any meeting is discouraged. The courses require at least three hours of computer work outside of class per week. Lab hours are not available; therefore, students must have access to their own hardware and software for the courses in which they enroll. Laptops are required for certain courses; check individual course descriptions for specifics.

FREE SOFTWARE AND SOFTWARE LICENSES

Certificate students may download AutoCAD for free upon proof of student status and may be eligible for academic rates on other software for their home computer. Prices and restrictions are subject to change. Software versions should reflect the version used in class as an older version may not possess the same interface or tools demonstrated in class. Each student must verify that his/her computer meets the software's minimum system requirements. For more information call (310) 825-9414.

ARCH X 472
Introduction to the Landscape Design Professions
4.0 units
This introductory course covers the history, scope, types, and scale of landscape design professions; licensure; professional societies; and current issues. Terminology, construction concepts, basic graphic skills, and model-making are also introduced.

Craig earned his BLA from the University of Idaho in 1985. Craig is licensed #4082 in the state of California.

Landscape Architecture Curriculum

Students can begin the program sequence Summer or Fall Quarter; courses must be taken in sequence & during the year indicated below.

Year 1

Summer/Fall	Fall/Winter	Winter/Spring	Spring/Summer
Introduction to the Landscape Design Professions (4 units) **Design Graphics 1: Drafting and Drawing of the Built Environment** (4 units)	**Landscape Design 1: Site Design Basics** (4 units) **Design Graphics 2: Communication for Site Analysis, Conceptual, and Site Design** (4 units)	**Landscape Design 2: Site Design** (4 units) **Design Graphics 3: Digital Rendering and Presentation Drawings** (4 units)	**Landscape Design 3: Advanced Site Design** (5 units) **AutoCAD 1** (4 units) **History of the Designed Landscape** (4 units) *Only Offered Summer Quarter*

Year 2

Fall	Winter	Spring	Summer
Grading & Drainage (4 units) **Plant Materials: Trees** (4 units) Portfolio Review	**Landscape Design 4: Sustainable Design/ Environmental Analysis and Planning** (4 units) **Plant Materials: Shrubs** (4 units)	**Landscape Design 5: Planting Design** (4 units) **AutoCAD 2** (4 units)	**Landscape Design 6: Concept Development** (4 units) **Irrigation/Water Conservation** (4 units)

Year 3

Fall	Winter	Spring	Summer
Landscape Construction Methods & Materials (4 units) **Construction Drawing 1** (4 units) **Professional Practices in Landscape Architecture** (2 units)	**Construction Drawing 2** (4 units) **Human Factors in Landscape Architecture** (4 units)	**Landscape Design 7: Advanced Design Studio** (5 units) **Capstone Project Seminar** (3 units)	**Capstone Project Studio** (10 units) Portfolio Review

- 6 elective units must be inserted into the 3-year plan before beginning the Capstone Project Studio.

- Students beginning Summer Quarter should expect the program to last 3 years and 1 quarter. They will receive individual advising and a slightly altered sequence.

ARCH X 472.4E
Design Graphics 2: Communication for Site Analysis, Conceptual and Site Design
4.0 units
Students build upon drafting, lettering, and drawing techniques learned in Design Graphics 1. The second class in the series, it also concentrates on the graphic conventions for site analysis, conceptual design, design process and measured plan, perspective, and section elevations as they relate to the field of landscape architecture and professional standards. All work product is developed from the Tongva Park site used in Design Graphics 1, located in Santa Monica. At the end of this course, students make an oral presentation to the instructor and visiting guests. The students present a package of work product that includes hand drafting and colored rendering of a conceptual site plan, section/elevations and perspective vignettes; graphic package of progress drawings including site analysis graphics, design concept studies, and a final design concept with supporting design elements.
Prerequisite(s): X 472 Introduction to the Landscape Design Professions and X 472.4D Design Graphics 1.

Rebecca Schwaner, MA, landscape and Project Designer at Studio - MLA. Her built work includes streetscapes, affordable housing environments, park and civic projects, and reclamation and restoration of habitat. In 2010 she was selected Outstanding Instructor of the year in Arts, Landscape Architecture Program.

ARCH X 472.12A
Grading and Drainage
4.0 units
This course covers the basic grading and drainage techniques used in every landscape architecture project. Students learn the skills necessary to grade a site of moderate complexity while considering public health, safety, and welfare. Instruction covers contour signatures and contour manipulation by cutting and/or filling; and stormwater management techniques including low-impact design, bioretention, and detention and retention areas. Basic grading formulas and cut and fill calculations are presented. The course also introduces

landform grading and erosion control together with road and path layout, and alignment for pedestrian and vehicular circulation.
Prerequisite(s): X 472.4D Design Graphics I, X 471.1B Landscape Design II, X 493.992 Introduction to Auto-CAD, or equivalent as determined by the program office.

Enrollment limited. Visitors not permitted. No refund after Oct. 1. 🌐
Jeff Chamlee, BLA, landscape architect (CA 1736); director of productions for Architect Design Group. With more than 35 years' experience in a diverse array of commercial, public, and private project types, such as Kenneth Hahn State Recreation Area, Veterans Memorial Regional Park in Sylmar, and Roxbury Memorial Park in Beverly Hills, among many others.

ARCH X 472.8A
Plant Identification: Trees
4.0 units
One of the two required plant material courses, focusing on plants, their communities, and place in the landscape. Instruction focuses on large-scale materials that often influence the landscape architect's overall site composition. This course concentrates on trees, shrubs and companion plant groupings, and planting location as design elements. Participants study plant texture, density, form, color, and other characteristics as articulators of space. Attention is given to cultural, taxonomical, and landscape maintenance idiosyncrasies. Each class meeting is either classroom/outdoors on campus or a fielddtrip. Students must bring a camera to all classes.

Tuesday, 7-10pm, Oct. 9-Dec. 4
UCLA Extension 1010 Westwood:
1010 Westwood Blvd.
No meetings Oct. 16; Nov. 6 & 20.
Visitors not permitted. No refund after Oct. 9. ⊕
Paul Lewis, BSLA, LEED AP, landscape architect (CA 3620). He is a LEED Accredited Professional, an allied affiliate member of the American Institute of Architects and a member of the United States Green Building Council.

ARCH X 496.2
Beginning Stormwater Management
2.0 units
Sustainable site planning requires understanding and calculating storm events and designing landscapes to capture, hold, and infiltrate stormwater through landscape designs that focus on several methods, from on-site retention and cisterns to green infrastructure, such as swales. This course showcases unique designs and describes the methods and calculations used to design stormwater BMPs for a site to appropriately accommodate seasonal stormwater within the Southern California region. This course will cover the California and City of Los Angeles regulatory requirements for stormwater and provide an overview of stormwater plan design hydrologic/hydraulic concepts, environmental site design, and non-proprietary stormwater BMPs, including critical design elements and typical stormwater plan compliance strategies.
Reg# 363430
Fee: $535

Become a Landscape Architect

Fall Quarter is the perfect time to start the Landscape Architecture Certificate with our two introductory courses.

X 472 Introduction to the Landscape Design Professions

X 472.4D Design Graphics I

• Designed for working professionals and those looking for a career change, this three-year, intensive program prepares you for the exciting and wonderful world of landscape architecture.
• You do not need to be a certificate student to enroll in the introductory courses.
• Explore a new career path... enroll today!

Above: Jessyca Frederick

Beginning Stormwater Management

This 6-week elective course in the Landscape Architecture certificate program showcases unique design solutions and describes the methods and calculations used to design stormwater BMPs for a site to appropriately accommodate seasonal stormwater within the Southern California region.

Geared toward working professionals in urban planning, landscape architecture, civil engineering, architecture, and government municipalities. Students will learn and apply current regulatory requirements for stormwater management, hydrologic/hydraulic concepts, environmental site design, and stormwater plan compliance strategies.

Page 131.

Introduction to SketchUp

Laptop

This course focuses on the fundamentals of the SketchUp software. Perfect for students with little or no SketchUp or 3D modeling experience. Two sections offered this quarter one in Westwood and one in Woodland Hills. Students must bring their own laptop to each class.

- Workshop focused on landscape applications
- Site model drafting and techniques
- Layers
- File and modeling preferences
- Exporting scenes to other usable formats

Check course description online for computer and software requirements.

ARCH X 493.33
Fundamentals of Exterior Lighting
2.0 units
Understanding how the eye functions as light levels change is critical to successful lighting design. In this course, students learn the unique lighting design skills of manipulating the eye through dark and light spaces and creating safe night spaces and compositions. The course highlights basic light concepts, such as the lighting vocabulary; how the eye and brain function to provide vision: how we see light and how it affects what we "see"; and how to quantify color for lighting design. The course covers various exterior lighting applications for roadways, sports lighting, retail/commercial, structures, parking lots, building exteriors, landscapes and residential design. Instruction also covers the process of lighting design and its concepts, such as designing with respect to the dark sky; and addressing safety and security.
